

READY TO BRAND
DIRECTORY 3

READY TO BRAND

Congratulations

- YOU ARE HOLDING AN INDUSTRY FIRST!

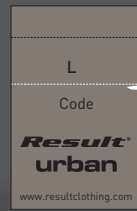

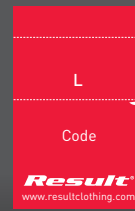

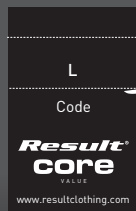

A numerical, quick reference directory of **Result** and **SPIRO** garments that are simply 'ready to brand'.

Each of our ready to brand styles are summarised here to show available colours and sizes, recommended decoration method and whether tag free or with removable label.

To enhance your brand definition, we are pleased to offer this guide to help you navigate our ever growing range.

GARMENT WITH CUTAWAY LABEL

COLOUR SUBJECT TO STYLE

GARMENT WITH SIZE ONLY LABEL

DECORATION PROCESS

RESULT® garments are designed to take decoration with hidden access points to allow for greater frame or platen purchase on outer fabric. Recommended decoration types have been tested independently and can be taken as an indication as to how the garment may perform.

Accuracy or completeness is not guaranteed so before use, the decorator must still determine the suitability of the product for the decoration intended.

Printers in particular employ different techniques and use a variety of products so RESULT® does not take responsibility for third party decoration and always recommends testing before bulk decoration.

When garments can be printed onto any colour other than white, extreme caution must be observed.

Due to the engineering of man-made materials, there is a high risk of colour migration through the ink film.

This may however be managed by experienced printers with the correct inks.

When suggesting digital transfers, customers are encouraged to seek advice from their digital media supplier, whether be it for full colour imagery or simple vinyl CAD cut transfers.

Contact RESULT® for further guidance.
